GENERAL INFORMATION

1-1. Scope. This regulation prescribes forms for use on CAP actual mission activities and operational training missions. The Civil Air Patrol provides services to conduct search and rescue (SAR), disaster relief (DR), and other public assistance missions. Many missions are in support of persons in distress and should be conducted competently, expeditiously, and in a professional manner. Proper training, thoroughness, and timeliness cannot be overemphasized. This regulation provides directions and completed samples of the standard CAP forms to be used in conducting emergency services training. Some situations may dictate variations in the procedures contained in this regulation, in which common sense and prudent judgment shall be used to ensure effective management of CAP resources. **Safety should always be a primary concern.**

1-2. Supplements/Operating Instructions/Waivers. No supplements, waivers or operating instructions (OIs) may be issued to this regulation by any unit below wing level except the Congressional Squadron. All supplements, waivers or OIs affecting any aspect of this regulation may only be issued after **prior** written approval of NHQ CAP/DO.

CAPF 10–REQUEST, AUTHORIZATION, AND REPORT FOR TRAINING/EVALUATION MISSIONS

2-1. Purpose. The CAPF 10 is used to request a training or evaluation mission, and report resource utilization to the CAP-USAF liaison region at the close of the mission.

2-2. Preparation. The form is completed by the emergency services staff at the unit, wing or region level to request funding.

2-3. Distribution. This form, upon completion is forwarded to the wing commander and liaison office at the wing level for certification. After certification by the liaison office, it is then forwarded to the CAP-USAF liaison region for approval and assignment of a mission number. This mission number is then communicated to the wing liaison office and wing commander for usage.

2-4. Instructions for Completing CAPF 10:

General Information – Enter the wing completing the request, the liaison region the request will be processed by and the date of the request.

1. Mission Type – Check the block of the mission type requested and provide the primary and alternate dates for the training.
2. Estimated Reimbursement – Enter the amount of funding requested for this mission as calculated on the back of the form. This should be determined by estimating the funding for flying hours, communications expenses, vehicle gas and oil, and totaling the above. At the same time the wing should provide justification for this training by providing an appropriate summary of the mission scenario with the location(s) that training will be conducted at so that all personnel required to review this form for approval know that there is a training plan in place and what the wing intends to do.
3. Certification – The Wing commander checks the appropriate block and then signs and dates the form. Once the wing commander certifies the request, the wing liaison office validates this request by signing and dating the form and forwarding it to the CAP-USAF liaison region for processing.

Note: Blocks 4 through 7 are not completed by the wing in preparing the request, and thus are not instructed here.

2-5. Availability. This form is available in accordance with CAPR 5-4, *Publications and Blank Forms Management* and at the NHQ CAP Website.

2-6. Usage Requirements. The CAPF 10 will be used to request all Air Force approved or funded training/evaluation missions.
